RGB White Wall Mount Controller

Simple to use mini colour wheel remote control for easy static colour selection plus pre programmed colour changing modes.

RGB + White allows for the normal Red, Green, Blue colour changing modes plus the addition of white gives softer colour tones when required.

White is independently selectable to give a true white when required.

This controller requires a high quality DC power supply providing clean DC or may not work correctly. Contact us for more details before installation.

Suitable to control most constant voltage LED RGBW lighting like LED strips and wall washers etc.

SPECIFICATIONS

Input

Output
5Amps x 4Channel
100Watt @ 5VDC
240Watt @ 12VDC
480Watt @ 24VDC
Pulse with Modulation
