

1DIFF150OL25M74

25M Roll Opal 74% For CHAN150,160,570,590,610,680

PRODUCT OVERVIEW

Achieve a clean, continuous finish for your lighting installation with our opal diffuser, offering a 74% light transmission rate for a soft, evenly diffused glow. Our most popular option which creates smooth, uninterrupted lines of light with both SMD and COB LED strips making it ideal for installations where the LED profile is in direct view. Supplied in a convenient 25m roll, it's ideal for installations where the LED profile is in direct view, eliminating the need for joins that can disrupt the visual flow.
