

1DIFF240BL25M22

25M Roll Diffuser Black 22% For CHAN240, 250

PRODUCT OVERVIEW

Achieve a clean, continuous finish for your lighting installation with our black diffuser. Supplied in a convenient 25m roll making it ideal for installations where the LED profile is visible in direct sight, removing the need for diffuser joins that can interrupt the visual line of the light. With a 22% light transmission rate, the black diffuser helps soften and conceal the LED source while creating a subtle, low-glare lighting effect. This makes it an excellent choice for architectural, retail, or feature lighting applications where visual appearance is just as important as performance.
