

DSCHAN120OLBK

Display Stock 2m Profile 120 Recessed Black With Opal Diffuser

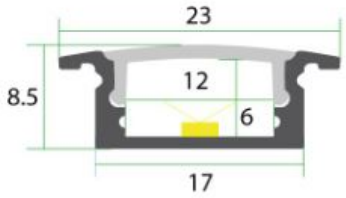

PRODUCT OVERVIEW

DSCHAN120OL is a slim recessed profile best suited for installations that require a low profile, flush finish. Ideal for applications such as toe kicks, retail display lighting, and bathroom cabinetry, it integrates seamlessly into joinery for a clean, architectural look. Designed as a cost effective solution, it delivers a smooth, dot-free line of light when paired with the appropriate strips. Constructed from 6063 structural-grade aluminium, the profile acts as an efficient heat sink to support LED performance and longevity. It is paired with a durable PMMA (acrylic) diffuser, suitable for interior use or exterior installations out of direct sunlight. Installation is simple and efficient by using countersunk screws through the base or it can be glued in place depending on the installation.
