

LCDWSR-2400

DALI Wall Mount Tuneable White Controller 100-240VAC or DALI Bus

PRODUCT OVERVIEW

A high-performance DALI DT8 dual white colour controller designed for seamless compatibility with all DT8 DALI systems. Capable of supplying DALI power to up to 50 devices, it ensures fast, smooth, and synchronised brightness control across connected fixtures. Featuring an innovative dual-power design, the controller can power the DALI bus from AC mains, or operate directly from the DALI bus when mains power is not connected.
