

LDLS-2CCONP

Red/Black 2 Core 0.5mm² Parallel Connector for Lumisheet

PRODUCT OVERVIEW

Our 0.5mm² parallel connector is designed for quick and reliable linking of single colour Lumisheet installations. Featuring a compact 2 core red/black cable, it provides a clean, discreet connection that integrates seamlessly into modern lighting applications. With a simple clip connection design, installation is fast and hassle-free with no soldering required. This makes it ideal for on site efficiency, reducing installation time while ensuring a secure and consistent electrical connection between sheets.
