

LEDCHAN690OL

Ultra Shallow & Bendable Surface Mounted 19.5mm x 6.5mm Aluminium Profile

PRODUCT OVERVIEW

LEDCHAN690 is a flexible aluminium mounting profile designed for surface mounting on curved or irregular surfaces. Its low profile form allows for slim lines of colour and refined colour detailing while maintaining a clean, architectural look. Engineered to bend smoothly around curves, LEDCHAN690 is ideal for feature lighting applications where continuous lines of light are required across non linear designs in both residential and commercial interiors.
