

LEDCHAN801OL

Shallow Plaster/Recessed External Corner 55.6mm x 23.7mm Aluminium Profile

PRODUCT OVERVIEW

This external corner plaster-in aluminium profile is designed to create a crisp, continuous line of light around outside corners while remaining completely flush with the finished surface. Once plastered, the profile disappears into the wall or ceiling, leaving a clean architectural edge with no visible trim. Ideal for modern interiors, it allows lighting to wrap seamlessly around corners, delivering a refined, minimalist finish suitable for residential and commercial applications where precise detailing and visual continuity are essential.
