

LEDCHAN920OL

Large Suspended 50mm x 50mm Aluminium Profile

PRODUCT OVERVIEW

LEDCHAN920 is an aluminium profile engineered for high-performance direct and/or indirect architectural lighting. Constructed from 6063 structural-grade aluminium, it offers excellent heat dissipation to support optimal LED performance and extended lifespan. Its versatile design makes it ideal for pendant installations above meeting tables and kitchen benchtops, and it can also be surface mounted using long countersunk screws for a clean, secure finish.
