

LM700W0.72/2

Led Module 0.72W 12VDC IP65 White

PRODUCT OVERVIEW

The LM700 is a high quality LED module featuring efficient 2835 SMDs for reliable, uniform illumination. A built-in constant current IC protects against voltage fluctuations, helping to maximise performance and extend service life. With a 0.72W output, the LM700 is ideally suited for signage backlighting and light boxes. Supplied in strings of 50 and cuttable at every module, it offers excellent installation flexibility. Double sided adhesive tape allows for fast mounting, with screw fixing holes provided for added security where required.
