LED Strip 19W/m 24V CRI90 2700-6500K Tuneable White IP20

PRODUCT OVERVIEW

The LS100 Tuneable White LED Strip features a dual chip design that combines 3000K and +6500K LEDs in a single strip. This allows seamless adjustment of colour temperature to create the perfect ambience from warm, relaxing tones to crisp, energising light, and every colour in between. Ideal for interior applications that require flexible lighting control, LS100 Tuneable White provides precise dimming and smooth transitions to suit any mood or task.
