

LS300MS-24V-8W-4K

LED Strip Micro COB 24V 8W/m CRI90 4000K IP54

PRODUCT OVERVIEW

Micro COB strip is a compact and efficient lighting solution suitable for applications in tight or detailed spaces. Its dot free light output ensures smooth, even illumination, making it ideal for installations where visual consistency is key. LS300MS is coated with a silicone spray which protects it against limited dust ingress and splashing water, this makes it ideal for installations under covered outdoor areas, such as bench seats, handrails, soffits, and other sheltered locations where exposure to elements is minimal but still a consideration.
