

NF-WH-0306-24V-9W-4K

Neon Flex Nano White 9W/m 24VDC CRI90 4000K IP54

PRODUCT OVERVIEW

The Nano Flex delivers a clean, seamless line of illumination while fitting into areas where traditional lighting products simply won't. Its compact form factor makes it ideal for cabinetry, shelving, recessed details, feature lighting, and installations where minimal visibility and tight tolerances are critical. For maximum installation flexibility, the Nano Neon Flex can be custom cut to required lengths and installed either sealed with silicone end caps or left exposed for interior applications where space is limited and a flush finish is preferred. Applying silicone to exposed ends can also help minimise dust ingress while maintaining a refined appearance.
