

LS150

Elite Series 24VDC Interior LED Strip

The LS150 range features constant current single colour LED strips with integrated IC technology, delivering precise current control for stable, uniform brightness across the entire length. Designed for reliable, long-lasting performance, the LS150 is ideal for architectural lighting, commercial displays, and interior decorative applications.

Compared to our Classic Series, the LS150 supports longer single feed runs while maintaining consistent light output, making it ideal for continuous or large scale installations. Its key advantages include accurate current regulation for uniform illumination and enhanced heat management to maximise lifespan and reliability, making it a dependable choice for professional grade lighting projects.

Features

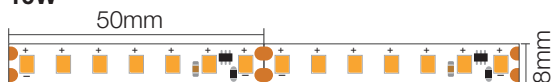

- Suitable for applications for long runs without voltage drop
- L70B10 @ 50,000hrs
- Working temperature of -25° - 60°C
- 5 year warranty based on correct installation
- Backed with 3M tape ready install inside aluminium profile
